

REMARKS

This is a full and timely response to the final Official Action mailed June 13, 2008. Reconsideration of the application in light the following remarks is respectfully requested.

Claim Status:

To put the application in condition for immediate allowance, claims 1-6, 8-17, and 19-43 are cancelled without prejudice or disclaimer. Thus, only claims allowed by the examiner, namely claims 7 and 50-58, remain in the application.

Allowable Subject Matter:

In the recent Office Action, the Examiner has indicated the presence of allowable subject matter in claims 7 and 50-58. (Action, p. 13). Applicant wishes to thank the Examiner for this finding of allowable subject matter.

Accordingly, all unallowed claims have been cancelled by the present paper. Consequently, following entry of this amendment, the application should be in condition for immediate allowance based on the Examiner's indication of allowable subject matter.

A previous Office Action also contains a statement of reasons for the allowance or allowability of claim 7. Applicant agrees with the Examiner's conclusions regarding patentability, without necessarily agreeing with or acquiescing in the Examiner's reasoning. In particular, Applicant believes that the application is allowable because the prior art fails to teach, anticipate or render obvious the invention as claimed, independent of how the claims or claimed subject matter may be paraphrased.

Conclusion:

In view of the following cancellation of claims, the application is believed to be in immediate condition for allowance. Therefore, this response is believed to be a complete response to the Office Action.

If the Examiner has any comments or suggestions which could place this application in even better form, the Examiner is requested to telephone the undersigned attorney at the number listed below.
